Typhoon Season 2017

The National Oceanic and Atmospheric Administration (NOAA) expects five to eight tropical cyclones to affect the central Pacific this season. If you are a U.S. Citizen traveling or residing in Vietnam, you may enroll in the Smart Traveler Enrollment Program (STEP) to receive safety messages and other travel information. During the approach of a typhoon you should monitor the U.S. Joint Typhoon Warning Center and the Vietnam National Center for Hydro-Meteorological Forecasting (Tiếng Việt).

You should also have an emergency plan in place before the approach of a typhoon, as even areas far from the coastline can experience dangerous winds, tornadoes, mudslides, and floods. Please consider the following precautionary measures prior to the advance of a typhoon:

• Locate shelter in your area and follow all official instructions from local authorities, including evacuation if ordered.
• Carry your travel documents at all times (i.e., copies of your U.S. passport, birth certificate, picture ID’s, etc.) or secure them in a safe, waterproof location.
• Secure loose outdoor items (limbs, roofing material, windows (coverings), doors, debris (trash), etc.).
• Fill up your vehicle, generator, and water tanks.
• Check and charge radios.
• Charge cell phones and carry your charger, including portable chargers available for most cell phone models at many convenience stores and electronic shops.
• Have bottled water; make ice.
• Gather flashlights, tools, and first aid supplies.
• Have fresh batteries, candles, matches, water, groceries (canned and/or dry foods), and pet supplies.
• Pack an adequate supply of first-aid materials and prescription medications.
• Let your family and office know how you plan to weather the storm, especially those family members in the United States. Keep them updated regarding your location and well-being.

For more information on how to prepare for typhoons and other natural disasters, please visit the State Department’s Natural Disaster webpage. Please also check the State Department’s Worldwide Caution webpage for Travel Warnings, Travel Alerts, and Vietnam Country Specific Information.
Updated Zika Virus Information

The U.S. Embassy in Vietnam informs U.S. citizens that on March 10, 2017, the Centers for Disease Control and Prevention (CDC) issued updated Travel Guidance for Vietnam regarding the risk of Zika virus infection. The CDC and the European Centre for Disease Prevention and Control (ECDC) have simultaneously made recommendations that pregnant women should not travel to areas with risk of Zika virus infection. The updated guidance covers travel to areas previously in CDC Travel Alerts and Considerations but also to additional areas that were added based on epidemiologic data regarding Zika transmission.

CDC and WHO Guidance

c. CDC website with an overview of Zika virus is found at: Zika Virus | CDC.

Zika virus is endemic. The risk of Zika to travelers, especially pregnant women, in endemic countries is likely lower (but not zero) than in areas where Zika is newly introduced and spreading widely. Women who are pregnant or planning to become pregnant should discuss their travel plans with their medical provider and consider postponing nonessential travel to Vietnam. Men whose partners are pregnant or are considering pregnancy should talk to their medical provider about CDC’s recommendations on how to avoid sexual transmission of Zika infection to their partners.

The CDC has concluded that the Zika virus is a cause of microcephaly and other severe fetal brain defects in some fetuses and babies born to some infected mothers. Zika also rarely may lead to the Guillain-Barré syndrome or other neurological conditions, which can affect individuals of any age or sex.

Zika virus is typically transmitted by the day biting Aedes aegypti mosquito, but there have been confirmed cases of transmission through sexual contact and blood transfusion. CDC reports that travel to elevations higher than 2,000 m (6,500 ft) above sea level is considered to have minimal likelihood for mosquito-borne Zika virus transmission, even within countries reporting active transmission.

For general information and the latest updates about Zika and steps to prevent mosquito bites and sexual exposure to the virus, please visit the CDC website.

For Your Information

The Federal Voting Assistance Program

Just voted in November? Still traveling or living overseas? You should register and request your absentee ballot to vote again in 2017 to ensure your election office knows where to send your ballot for any upcoming special elections for federal office. Some states are also holding gubernatorial or other statewide elections this year.

The Federal Voting Assistance Program (FVAP) recommends all overseas U.S. citizens send in a completed Federal Post Card Application (FPCA) early every year. The FPCA is the registration and ballot request form accepted by all states and territories.

You can use the FPCA online assistant, complete the fillable PDF version, or pick up a hardcopy version from your nearest U.S. Embassy or Consulate. Be sure your contact information is accurate in case your election office needs to reach you.

If you'd like more information on the Federal Voting Assistance Program or need help with the absentee voting process please go to FVAP.gov or call FVAP at 703-588-1584 (toll free 1-800-438-VOTE or DSN 425-1584) or email vote@fvap.gov.

Attention U.S. citizens!

Beginning January 1, 2017, the IRS will require that all (Individual Taxpayer Identification Numbers (ITINs) not used on a federal tax return at least once in the last three years will no longer be valid for use on a tax return. Find more information, please visit our website https://vn.usembassy.gov/u-s-citizen-services/internal-revenue-service-u-s-taxes/ or at IRS.gov.

**Alabama Special Primary Election Scheduled for August 15**

The State of Alabama will conduct a special primary election on Tuesday, August 15, 2017, for the office of U.S. Senator to replace Jeff Sessions.

The special runoff election will be held on September 26, 2017.

The special general election will be held on December 12, 2017.

Service members, eligible family members and overseas citizens may use the Federal Post Card Application (FPCA), which is the registration and ballot request form accepted by all States and territories. Complete, sign and send the FPCA to your election office. If you are a resident of Alabama, register and request an absentee ballot today starting at [FVAP.gov](http://FVAP.gov).

If you are not currently registered, your FPCA needs to be received by July 31; if you are currently registered, your FPCA ballot request must be received by August 10.
Vietnam Extends Visa Validity for U.S. Citizens Traveling For Business and Tourism

The new reciprocity arrangement entered into force on 29 May 2016 and will benefit American and Vietnamese tourists and business travelers. Vietnamese embassies and consulates are currently issuing 12-month multiple-entry visas to U.S. citizens, but visa fees vary. Shorter-term visas are available at some Vietnamese embassies and consulates, and single-entry visas are available online at https://www.immigration.gov.vn/. We welcome feedback from American citizens applying for 12-month visas to help us to better work with the GVN towards full implementation of the arrangement.

To share your experience, please contact us at ACShanoi@state.gov.

U.S. Citizens Eligible for E-Visa Program

In February 2017, Vietnam launched a pilot e-visa program for citizens of 40 countries, including the United States. The program uses an online application process to issue 30-day, one-entry visas for $25, payable via bank transfer. E-visa holders may enter and exit Vietnam through 28 designated international border gates, including all international airports. The pilot program will continue through January 31, 2019 subject to review and extension. The Vietnamese e-visa instructions and application are available online. The correct Vietnamese government websites for e-visas are https://www.immigration.gov.vn/ and https://www.xuatnhapcanh.gov.vn.
The U.S. Embassy and U.S. Consulate have installed air quality monitors to measure PM 2.5 particulates as an indication of the air quality. You can read more information and check the current reading for Hanoi and for Ho Chi Minh City at: https://vn.usembassy.gov/embassy-consulates/embassy-air-quality-monitor/ for Hanoi, and https://vn.usembassy.gov/embassy-consulates/ho-chi-minh-city/air-quality-monitor/ for Ho Chi Minh City.

For more details on air quality index, please follow the link to the Environmental Protection Agency’s Air Now website. The AQI can be observed either by clicking on the location on the map, or by selecting Hanoi or Ho Chi Minh City in the “Select a City” option on the upper right part of the page. The page provides AQI over the last 24 hour period as well as pollutant concentration and a downloadable historical document.

Please note that citywide analysis cannot be done with data from a single monitor. This data provides an accurate measure of the air quality in the section of each city close to the location of the monitor. The Vietnamese Ministry of Natural Resources and Environment also provides air quality data for Hanoi. You can view this information at http://www.cem.gov.vn/.

The U.S. Environmental Protection Agency (EPA) has developed a formula to convert PM 2.5 readings into an air quality index (AQI) value that can help inform health-related decisions. Meanings of AQI numerical values can be seen in the chart below. For more information on AQI and how it is

<table>
<thead>
<tr>
<th>Air Quality Index Levels of Health Concern</th>
<th>Numerical Value</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Good</td>
<td>0 to 50</td>
<td>Air quality is considered satisfactory, and air pollution poses little or no risk</td>
