Passport Fee Increase

Effective April 2, 2018, the passport execution fee will increase from $25 to $35. The $10 execution fee increase applies to U.S. passport applicants using the DS-11 form including: first-time applicants over age 16, children under age 16, and applicants who reapply after reporting their previous passport lost or stolen.

Customers applying with the DS-11 form at a U.S. embassy or consulate abroad pay two separate fees: an application fee to the U.S. Department of State and the execution fee to the Passport Acceptance Facility (such as a post office in the United States or a U.S. embassy or consulate abroad). Accordingly, the total passport fee for such applicants will increase by $10 in total.

The $10 fee increase does not apply to adults eligible to renew their passport using the DS-82 form. The Department of State published a Final Rule confirming this fee change on January 31, 2018.

The Federal Voting Assistance Program

Still traveling or living overseas? You should register and request your absentee ballot to vote again in 2018 to ensure your election office knows where to send your ballot for any upcoming special elections for federal office. The Federal Voting Assistance Program (FVAP) recommends all overseas U.S. citizens send in a completed Federal Post Card Application (FPCA) early every year.

To register and request your ballots, you can use the FPCA online assistant or complete the fillable PDF version. Be sure your contact information is accurate in case your election office needs to reach you.

If you'd like more information on the Federal Voting Assistance Program or need help with the absentee voting process, please go to FVAP.gov or call FVAP at 703-588-1584 (toll free 1-800-438-VOTE or DSN 425-1584) or email vote@fvap.gov.

Toll-free phone numbers from 67 countries are listed on FVAP.gov. Find FVAP on Facebook at facebook.com/DoDFVAP and follow @FVAP on Twitter.

Air Quality Monitors in Hanoi and Ho Chi Minh City

The U.S. Embassy and U.S. Consulate have installed air quality monitors to measure PM 2.5 particulates as an indication of the air quality. You can read more information and check the current reading for Hanoi and for Ho Chi Minh City at: https://vn.usembassy.gov/embassy-consulate/embassy/air-quality-monitor/ and https://vn.usembassy.gov/embassy-consulate/ho-chi-minh-city/air-quality-monitor/

For more details on air quality index, please follow the link to the Environmental Protection Agency’s Air Now website. The AQI can be observed either by clicking on the location on the map, or by selecting Hanoi or Ho Chi Minh City in the “Select a City” option on the upper right part of the page. The page provides AQI over the last 24 hour period as well as pollutant concentration and a downloadable historical document.

Please note that citywide analysis cannot be done with data from a single monitor. This data provides an accurate measure of the air quality in the section of each city close to the location of the monitor. The Vietnamese Ministry of Natural Resources and Environment also provides air quality data for Hanoi. You can view this information at http://www.cem.gov.vn/.

The U.S. Environmental Protection Agency (EPA) has developed a formula to convert PM 2.5 readings into an air quality index (AQI) value that can help inform health-related decisions. Meanings of AQI numerical values can be seen in the chart below. For more information on AQI and how it is calculated, please click here.
